Achievements

Since Jan'16 with BirlaSoft, NOIDA as Senior Software Engineer (A2)

Dec'09-Jan'16 with Aon Hewitt, NOIDA as Senior Software Engineer

Key Result Areas:

- Managing requirements gathering, collation of project functional and technical requirements; following-up with clients throughout the project lifecycle to ensure full understanding of needs & concerns
- Spearheading the team of 4 members; following the project life cycle methodology defined under the process framework; ensuring that customer deadlines are met within project budgets
- Creating and managing the estimates, project plan, project schedule, resource allocation and expenses to ensure that targets are reached
- Developing / reviewing test cases for conducting Unit & System Integration Testing
- Supervising the preparation of flowcharts, block diagrams and code programs for validation and testing
- Designing and writing automated functional and unit tests; supporting developers in troubleshooting system issues along with monitoring system-level integration
- Mapping requirements of clients as well as different Service Providers, Senior Management, Vendors / Consultants & other Stakeholders for ensuring effective translation of business needs into technology requirements in adherence with company's objectives
- Leading the design and creation of functional specifications and test plans for use by the team
- Suggesting measures for streamlining application programming and maintenance as per quality standards (CMMI, and so on)
- Identifying issues and risks in a timely manner; developing/implementing appropriate mitigation and contingency plans
- Working with relevant Resource Managers for project staffing and resource releases

Highlights: (Pls. segregate highlights according to the organization)

- Created a software design process to translate business requirements into technical design documents resulting in improved quality control and output that was 'right the first time'
- Recipient of:
 - **Platinum Award** for delivering outstanding contribution for the team and organization
 - **Extra Miler Award** for delivering outstanding contribution for organization
 - **Gold Award** for the successful delivery for the client State Farm
 - **Gold Award** for delivering solution to client while RFP was signing off with client 3M
- Steered several failed implementation projects that had cost, time, or scope overruns towards successful completion
- Delivered customized applications for GE Aviation- Commercial Engines processes that resulted in savings of up to 100 hours in effort and reduced costs by 5%, due to decreased cycle time and improved quality

Technical Skills

Languages: Apex and Java

Technologies: Apex, Visual force, Angular JS and Java

IDE / Development Tools: Force.com IDE Eclipse, Data loader, Workbench and Postman Rest Client, aside.io

Operating Systems: Windows 98/NT/2k/XP/Vista

Backend Database: SQL Server

Education

- B.Tech. (Electronics & Communication) from Integral University, Lucknow in 2008

Certifications

- Certified ADMIN 201 Salesforce
- Certified Platform App Builder for Salesforce

Academic Achievements (Confirm for Placement)

- Merit of being Winner of TT Championship held across universities in 2008
- Represented the State Team and won Vino Mankad Trophy

Date of Birth: 15th July 1986

Languages Known: English and Hindi

Address: B-81, Flat 3, Lane No. 7, Shaheen Bagh, Jamia Nagar, New Delhi –110025

Annexure

Projects Undertaken

With BirlaSoft

Title: **GE Aviation Service Cloud Release**

Client: GE Aviation (Commercial Engines)

Development Tool: SFDC, Dataloader, Force.com IDE, Workbench and Aside.io

Technologies: Salesforce.com, Force.com, Apex and Visualforce

Description: The project involved development and implementation of various modules for GE Aviation in Sales Force. Worked as developer for the same client.

Responsibilities:

- Drove Opportunity and Sales Quote Enhancements for Commercial Engine (Sales)
- Addressed issues and steered enhancements for GE Aviation Service and System
- Customized opportunity and account in MSO (Sales)

With Aon Hewitt

Title: **Internal Client**

Description: The project involved development of application on Salesforce.com.

Client: Internal

Development Tool: SFDC

Technologies: Salesforce.com, Force.com, Apex and Visualforce

Responsibilities

- Conducted analysis and designing of the requirement
- Designed & developed business logic

Title: **YBR (Your Benefit Resources)**

Client: 3M, Statefarm, Allstate, UPMC, BC Hydro, Goldman Sachs, Discover, Chrysler, Home Depot, Target, MetLife, American Airlines, DirecTV, Alacatel, Phillips, Aon and 250 Others

Development Tool: Eclipse IDE and SQLDeveloper

Technologies: Core Java, HTML, JSP & Java Script

Responsibilities

- Performed analysis of the existing code to find out the possible issues
- Conducted development activities and system testing
- Ensured the adherence of organizational and quality processes
- Provided post deployment, implementation & after care support and conducted bug fixing
