

REKHATHA HARIDAS

Cell:+91-8884604618 | Email:ammurekhatha@gmail.com

Objective: "To establish myself as a competent and versatile professional in the software field where I can utilize my skills and abilities to the full extent, as well as enhance my capabilities. Aiming to use all my potential to satisfy the requirement for your company as well."

SUMMARY

- ❖ 5+ years of experience in Software Development
- ❖ Possess excellent communication, interpersonal and analytical skills. Experience of working under cross-cultural environments.
- ❖ Interested and capable of adapting to new technologies.
- ❖ Possess experience in developing and problem solving of web applications using J2SE, J2EE technologies and Spring, Groovy on Grails and Hibernate framework.
- ❖ Possess experience in Agile methodology.
- ❖ Possess experience in all phases of software development life cycle from requirement analysis to implementation including testing.
- ❖ Possess experience in debugging and fixing bugs using Eclipse debugging tool.
- ❖ Possess basic knowledge about Amazon Web Service, AZURE, JIRA (API and tool) and also about Flex
- ❖ Good exposure to version controls GIT, Bit Bucket, SVN, Perforce
- ❖ Test Driven development using Spock, Jasmine & Karma

TECHINICAL PROFICIENCY

- ❖ Core skill set :Java,J2EE, Spring MVC, Web Services(Rest, Soap), Hibernate, Groovy/Grails , MEAN Stack
- ❖ Additional skill set :C, C++, Spring Boot, Angular Js, HTML5, Bootstrap, Maven , Gradle, JSF, SQL, Jenkins, Gulp, Bower, Kafka
- ❖ Databases : Oracle 11g , Cassandra
- ❖ Web Server :Tomcat
- ❖ Tools :Eclipse, STS, GGTS, IntelliJ, PL/SQL developer, Perforce, SVN, VersionOne, DBeaver
- ❖ Platforms: Windows
- ❖ Cloud Platforms: AWS, Azure

PROFESSIONAL CERTIFICATIONS

- ❖ Oracle Certified Professional, Java SE 6 Programmer(OCJP) – June, 2016

WORK EXPERIENCE

- ❖ Company Name : IBM India Pvt Ltd
- ❖ From : 29 th NOV 2017 To : Till Date
- ❖ Designation / Role : Senior System Engineer
- ❖ Company Name : TATA Consultancy Services Limited
- ❖ From : 26 th DEC 2012 To : 28th NOV 2017
- ❖ Designation / Role : IT Analyst

PROJECTS HANDLED

1. Crew Transport BNSF Rails

- ❖ **Project:** We are developing a web application for railroading of BNSF rails, to automate their day to day activities.
- ❖ **Responsibility:** Lead developer for entire development team, Requirement Gathering, Setting up the Project Attend project meetings and Status meetings with team. Estimation of the Project deliverables. Development of requirements.
- ❖ **Technology:** Spring Boot , Groovy, Angular Js, Bootstrap, Cassandra , Kafka Webservice(Rest and SOAP), Spock, Swagger API
- ❖ **Tools:** Spring Tool Suit(STS), Gradle, Git Repository, Jenkins

2. Starfish

- ❖ **Project:** Starfish is a web application that manages the device and organisation of the company.
- ❖ **Responsibility:** Team Lead for entire development team, Requirement Gathering, Setting up the Project Attend project meetings and Status meetings with team. Estimation of the Project deliverables. Development of requirements.
- ❖ **Technology:** Spring Boot , Angular Js, Bootsrtp, Gulp, Bower,Bootstrap, Oracle , Webservice(Rest and SOAP)
- ❖ **Tools:** Spring Tool Suit(STS, GGTS), Maven, Bit bucket Repository, Jenkins

3. IAM

- ❖ **Project:** IAM is a project used during aquctison of another company. It is used to migrate all the data and other needed infomations in minimal time to the existing system.
- ❖ **Responsibility:** Requirement Gathering, Setting up the Project Attend project meetings and Status meetings with team. Estimation of the Project deliverables. Development of requirements.
- ❖ **Technology:** Spring Boot , Angular Js, Bootsrtp, Gulp, Bower,Bootstrap, Oracle , Webservice(Rest and SOAP)
- ❖ **Tools:** Spring Tool Suit(STS, GGTS), Maven, Git Repository, Jenkins, JIRA, SourceTree

4. Qdisk

- ❖ **Project:** QDisk is a web application for QCT engineering to request and manage storage. It captures data that will continually enhance the ability to plan disk purchases in a timely manner and allow engineers to view how their storage is being used.
- ❖ **Responsibility:** Requirement Gathering, Setting up the Project Attend project meetings and Status meetings with team. Estimation of the Project deliverables. Development of requirements.
- ❖ **Technology:** Spring Boot , Angular Js, Bootsrtp, Gulp, Bower,Bootstrap, Oracle , Webservice(Rest)
- ❖ **Tools:** Spring Tool Suit(STS, GGTS), Maven, Git Repository, Jenkins, JIRA, SourceTree

5. Export Compliance Classification(ECC)

- ❖ **Project:** The export classification tracking system (ECCN Portal) is a tool that facilitates the export review and classification process. This tool allows you to submit an online request to obtain an export control classification number (ECCN). This tool also allow you to search for ECCN information related to Company items (hardware, software, technology, and other equipment) and some third party items.
- ❖ **Responsibility:** Requirement Gathering, Setting up the Project Attend project meetings and Status meetings with team. Estimation of the Project deliverables. Development of requirements.
- ❖ **Technology:** Groovy and Grails , Angular Js, Bootsrtp, Gulp, Bower,Bootstrap, MySql, Webservice(Rest)
- ❖ **Tools:** Tool Suit(STS, GGTS), Maven, Git Repository, Jenkins, JIRA, SourceTree

6. REMEDY:

- ❖ **Project:**Remedy is a web application to track the Bugs, Enhancements and Tasks raised by Users. User can be Developer, Tester or any person. After development phase of any project testing phase comes and Remedy is very useful at testing phase. Remedy is useful to track the bugs raised by Quality Analyst people in testing phase. Remedy is integrated with Perforce objects, Sales force Qforce site also.
- ❖ **Responsibility:** Impact Analysis and Design in the project initial stage. Attend project meetings and Status meetings with team members. Estimation of the Project deliverables. Development of requirements and mentoring team. Communicating with customers in integration phase.
- ❖ **Technology** – Java/J2EE, Spring, Spting Boot, PL/SQL, Hibernate, JSF, SOAP web service.
- ❖ **Tools:** Eclipse, PL/SQL developer , SVN, Perforce tool, SOAP UI,Maven

7. Material Request Workflow(MRW)

- ❖ **Project:** MRW is a web Application which is used to order different types of materials just like a shopping portal. Once a material is ordered it will go for different levels of approval. Based on whether a request is approved/cancelled the material will be dispatched/rejected
- ❖ **Responsibility:** Being Maintenance project my first responsibility was to understand entire flow and the business requirements of the project. Analyzing the requirements for the enhancements, coding, testing, maintenance were my primary responsibilities.
- ❖ **Technology:** Spring MVC, Oracle 10g, Web services (SOAP), jQuery
- ❖ **Tools:** Eclipse, Maven

8. HardwarePlan:

- ❖ **Project:** The current hardware plan application is the first generation of the electronic hardware plans and was developed to move the IPS Project Managers from a spreadsheet centric hardware plan to an electronic, better organized and more convenient application. It has an integration build with Agile and allows IPS PMs to create HW Plans once the MCN is released in Agile. It also allows customers to search and view the existing HW plans along with giving an ability to drill down to the BOM level details. The second generation of hardware plan would carry forward all the features and functionality from its predecessor and at the same time would provide improvements in terms of application usability and performance.
- ❖ **Responsibility:** Coordination with Analyst. Attend project meetings and Status meetings with team. Estimation of the Project deliverables. Development of requirements
- ❖ **Technology** – Groovy and Grails, JavaScript, JQuery, CSS, Oracle
- ❖ **Tools:** GGTS, PL/SQL developer, Perforce tool.

9. SeQure

- ❖ **Project:** SeQure is a web application for managing day to day activities of security officials. Before seQure all the data is maintained in Books which is a tedious job. Two main actors of SeQure are Admins and Users. Admins can send notifications to users or orders for particular types of posts. Admins/Users can report any security incidents happened in any of the Office Buildings
- ❖ **Responsibility:** Active participation in development of the project, Analysis and coding, Testing and coordinating with different teams that includes LDAP, DB, TechOps for the project set up.
- ❖ **Technology:** Groovy and Grails, Angular, jQuery, MySql, Webservice(Rest)
- ❖ **Tools:** Spring Tool Suit(STS), Maven

10. Qportal

- ❖ **Project:** Qportal is a web application, which is developed as an aid for the users for their daily official activities. This web application helps to schedule a meeting and block a meeting room, even in a recursive manner. To search for an employee and get the details of the same. And also to schedule new events and managing the same. And we have another feature called asset management, which helps to track the assets that are used in the account and also to avail the asset. In this application different roles have different level of activities, Admin role, in which the Admin can approve the request of a new employee, creating and owning an asset, approving the asset request. User role can create meeting and events. Till now these are also manual activities, so there comes the role of this application.
- ❖ **Responsibility:** Requirement Gathering, Setting up the Project Attend project meetings and Status meetings with team. Estimation of the Project deliverables. Development of requirements.
- ❖ **Technology:** MEAN Stack, Mocha , Istanbul , Angular Js, HTML 5
- ❖ **Tools:** Node Eclipse, Robomongo.

ACADEMIA

- ❖ 2012: Master of Computer Application from MES Engineering College, Kuttipuram, Kerala with 76%
- ❖ 2009: Bachelor of Computer Science from Unity College, Manjeri, Kerala with 80%
- ❖ 2006: Higher Secondary from Navamukunda Higher Secondary School, Kerala with 82%
- ❖ 2004: SSLC from FMEMHSS, Tirur, Kerala with 88%

CORPORATE TRAININGS UNDERGONE

- ❖ ILP (Initial Learning Program) trained in Technical and Business Skills by TATA Consultancy Services Limited.
 - Trained by TCS on Java Technologies to work in Software industry. Trained in Technical as well as Business Skills for handling the projects and interacting with clients..
 - There I have learnt about Various skills as Developing a web application, Professional Ethics, Email etiquettes, Food etiquettes etc.
 - They have trained in the technologies like Java(SE,EE), SQL, PL/SQL, HTML, JSP, CSS

PERSONAL DOSSIER

Date of Birth: 26th September, 1988
Linguistic Abilities: English, Malayalam, Telugu
Hobbies: Listening to Music, Reading
Marital Status : Single
Passport Number: K3061867

DECLARATION

I hereby declare that the statements made in above are true and correct to the best of my knowledge and belief.

PLACE:
Bangalore

Yours Faithfully,
Rekhatha Haridas
