- Highly motivated ,self-directed , meticulous yet pragmatic and quick adaptability to new technologies, methodologies, strategies and processes.
- Enjoys strategic collaboration, brainstorming and mentoring group analytical ability.

EMPLOYMENT HISTORY

- Working with Scan-IT Solutions (India) Pvt Ltd
Lead – Software Engineering - April 2018 – Till Date
- Worked with Shipco IT Private Ltd, Pune
Tech Lead - II - May 2016 – March 2018
- Worked with **Analyza Technologies, Pune**
Principal Consultant - May 2007 – April 2016
- Worked with **Indus, A Business of R Systems International Ltd, Pune ,**
A SEI CMM Level 5 / ISO 9001 Company .
Senior Systems Analyst - Jan 2006 – April 2007
Systems Analyst - Jan 2005 – Dec 2006

Analyst**- Feb 2004 – Dec 2005**

- Worked with **Netsurf Communications (P) Ltd, Pune**
Software Engineer - Oct 2001. to Jan 2004.

TECHNICAL SKILLS

Operating System	Windows 98/NT/2000/XP/7/8/10, Unix, Linux,Sun Solaries
Languages	C, C++, Java, PHP,PL/SQL
Database Server & Client Tools	Oracle 9i,10g,11g, MySQL,SQL Server , Ms-Access,TOAD , PL/SQL Developer,MYSQL Front,MySQL Workbench.
Java Technologies	Core Java, JDBC , JAVA EE - Servlet, JSP, JSTL, Struts, Spring Framework, Spring Boot,Spring Batch,Quartz, Hibernate, JTA, JPA, IBATIS, EJB , JMS, Web Services – SOAP & Rest Services (Rest Easy , Spring Rest) , Axis , Log4J, iText, Jasper Reports, Google Web Toolkit (GWT), Java-8 , Lamda Expression ,Micro Services. Build Tools - Maven and Ant
Formatting Languages	HTML-4/5, XHTML/CSS, DHTML, Java Script, JQuery, AJAX,JSON, AnjularJS, Bootstrap, Responsive Web Design.
Microsoft Technologies	Visual Basics 6.0, VBScript, COM, COM+, ASP3.0, SOAP, WSDL, MSXML.
XML Technologies	XML, XSL, XSLT, Dom, X-Path, SAX,JAXP,JiBX,Javascript Dom API, JSON Java API
LAMP	PHP /MYSQL & Open source frameworks – Wordpress, OS- Commerce, Custom CMS.
Methodologies & Tools	OOAD, UML, Rational Unified Processes, J2ee Design Pattern,MVC Architecture, Architexa,ObjectAid, Star UML & Various Processes like Agile, Sprints, V-Model and CMM. Project Tracking Software - Atlassian JIRA
Web Servers	IIS-5.0,6.0,7.0, IBM http server, Apache web server , WAMP, XAMP
Application Servers	Alliare Jrun3.0/4.0, BEA Weblogic 7.1/8.1,IBM WebSphere 5 .0/6.0, Pramati 5.0, Jboss 4.2.2/5/6/7,Wildfly - 8,10, Apache Tomcat.
Tools	NetBean, IntelliJ IDEA, Eclipse IDE for java ,Microsoft Interdev, Microsoft Visio 2000, Seagate Crystal Report, and familiarities with Rational rose, Source Jammer, PVCS Tracker & Version Management Tool, Sub Version,GIT, Bit Bucket, Bamboo ,Macromedia Dreamweaver, Microsoft Soap Toolkit, YourKit Java Profiler, Jconsole, FillZilla , WinSCP , Putty
Payment Gateways	PayPal , Authorize.Net , Axis Bank , Citrus Payment,CC Avenue, Google Checkout.
Hosting	AWS Cloud ,Microsoft Azure, Host Gator, Go-daddy ,IPower

EDUCATIONAL QUALIFICATION

- **B.E (E & P)** – Chandrapur Engineer College , Chandrapur, Nagpur University.
Session – 1995 – 1999 , Percentage – 76.64%
- **HSC** – Thapar Junior College,Ballarpur , Maharashtra State Board.
March 1994 , Percentage - 65.67%
- **SSC** – Thapar Higher Secondary School, Ballarpur,Maharashtra State Board.
March 1992, Percentage - 67.71%

PROJECTS SUMMARY

1. SCAN-IT | SHIPCO -IT : AIR FREIGHT OPERATION & MANAGEMENT

<i>Client</i>	Shipco Transport - Global, Scan-Shipping – USA, Strait Air - USA
<i>Tenure</i>	Feb 2017 – till date
<i>Technical Environment</i>	Java , Spring Framework, Spring boot, Google Web Toolkit (GWT), JDBC, Web Services – RESTEasy, Quartz, Maven, Git, Bit bucket , Descartes EAWB Integrations for cargo tracking, e-Invoicing api integration by Edicom
<i>Server</i>	Jboss 7, Wildfly 8, 10
<i>Database Server</i>	Oracle 11g, MYSQL
<i>Roles and Responsibilities</i>	<i>Technical Lead</i> - Involved in Requirement Study with BA/PM for various new features, Estimations & Project Planning , Technical and Architectural Assessments, Technology Stack Selections, Application Architecture Design, Provided guidelines, standards, and team mentoring , Conducted Daily Stand-ups, Reviews for Technical specification documents and code, Extensively involved in Development & Implementation during sprint iterations.
<i>Team Size</i>	12
<i>Description</i>	A unique airfreight module that offers end-to-end shipment management solutions covering the full air cargo supply chain. It enable freedom to control entire operation from planning to execution in an efficient manner. The broad operations include quotes, managing import/export/third party bookings, International master console, Electronic Airway Bill (eAWB) generation/transmission/cargo tracking with descartes for carriers, forwarders & ground handling agents, Various other cargo documentation. Pickup/ Delivery management, Warehouse Management, Rates & Invoicing, e-invoicing from edicom for chile. EDI Interfaces.

2. SHIPCO -IT : OCEAN FREIGHT OPERATION & MANAGEMENT

<i>Client</i>	Shipco Transport - Global, Scan-Shipping - USA
<i>Tenure</i>	May 2016 – Jan 2017
<i>Technical Environment</i>	Java , Spring Framework, Google Web Toolkit (GWT), JDBC, Web Services – Rest Easy , Log4j, JSON Java API , Quartz, Maven, Git, Bit bucket
<i>Server</i>	Jboss 7, Wildfly 8, 10
<i>Database Server</i>	Oracle 11g, MYSQL
<i>Roles and Responsibilities</i>	<i>Technical Lead</i> - Involved in Requirement Study with BA/PM for various new features, Estimations & Sprint Planning , Technical and Architectural Assessments, Technology Stack Selections, Application Architecture Design, Provided guidelines, standards, and team mentoring , Conducted Daily Stand-ups, Sprint Retrospectives, Reviews for Technical specification documents and code , Extensively involved in Development & Implementation during sprint iterations.
<i>Team Size</i>	12
<i>Description</i>	Ocean Freight module streamlines the operations to help manage all-around supply chains for shipping cargo business. It aim to deliver higher level of efficiency, productivity and profitability through intelligent technology tailored for the industry. The broad operations include quotes, managing import/export/third party bookings, Rates & Invoicing , Settlement Vouchers, Bill Of Lading, Arrival Notice, Various other cargo documentation. Pickup/ Delivery management, Warehouse Management, EDI interfaces.

3. ANZTECH : PAYMENT PROCESSING SYSTEM

<i>Client</i>	Paymenex Ltd, United Kingdom
<i>Tenure</i>	August 2007 – April 2016 [OnGoing [development /maintainance / enhancements]
<i>Technical Environment</i>	Java, JSP, Servlet, Beans,EJB 2.0, JDBC, XML,SOAP,WSDL, Web Services, Axis, ANT,AES Encryption, Html/CSS, JavaScript, JQuery, DOM,SAX, Struts Framework, Log4j,JSON Java API , Third Party APIs for currency Update, mobile airtime, DStv recharge,Clickatell,ASP SMS Gateways.
<i>Server</i>	Jboss 4.2.2 /6 Application Server , Apache Tomcat
<i>Database Server</i>	MYSQL 5.0
<i>Roles and Responsibilities</i>	Involved in Requirement Study, Project Management, Client Interaction, Technical and Architectural Assessments, Technology Stack Selection, Architecture Design, Thirty Party Framework Assessments, Provided guidelines, standards, and mentoring team, Extensively involved in Development & Implementation.
<i>Team Size</i>	5 – 8
<i>Description</i>	

Paymenex.com is a low cost payment processing system which offers Remittance Services, Online Payment Gateway Services, Payment Acceptance Service, Mobile Airtime Recharge, DSTV Recharge, Bill Payments ,Third Party Switching etc through its debit cards / vouchers.
